REPORT OF ACTIVITIES  
PHOTODUPLICATION SERVICE  
ARMY MEDICAL LIBRARY

The first six months of operation of microfilm copying under the policy of free service in lieu of loan of books has now been completed. Although this plan was adopted for serving more perfectly the medical units of the Armed Forces, its rapidly expanding utilization by others shows that microfilm copying on a free basis as an extension of the service which reference libraries should render to those engaged in the advancement of learning, is fully justified. The following table shows the number and distribution of microfilms made during the past six months:

1943	Number of microfilms made for:					
	<u>Army and Navy Medical Units</u>		<u>Research Institutions</u>		<u>Governmental Departments</u>	<u>S.G.O. and Library</u>
	Domestic	Abroad	Domestic	Abroad		
Jan.	180	69 (16)	916	15 (13)	5	28
Feb.	196	78 (19)	394	32 (21)	5	13
Mar.	393	357 (23)	890	50 (16)	14	34
Apr.	462	418 (36)	1000	53 (21)	16	20
May	249	227 (18)	575	68 (19)	24	22
June	<u>544</u>	<u>360 (22)</u>	<u>701</u>	<u>234 (26)</u>	<u>66</u>	<u>23</u>
	2024	1509	4476	452	130	140
						Total of 5731

Note: Figures in parenthesis show number of different stations to which the microfilms were sent.
